Welcome to the Cat® S60 Smartphone

The S60 smartphone is designed for the outdoors, with features to cope with challenging environments. Equipped with a built-in FLIR thermal, the S60 will give you clear thermal imagery and multiple spot meters that allow you to retroactively pinpoint a temperature in your image. It is certified to the highest industry standard for ruggedness, IP68, so it can survive depths of up to 5 meters for 60 minutes and it can also take underwater photographs and video. It also supports glove and wet-finger compatible touchscreen. It has a scratch-resistant glass, is dustproof and can withstand being dropped from a height of 1.8m.
